WARDROBE

CHEST OF DRAWERS

Opened in 2008 and owned since 2014 by Théo's partners, our workshop is specialised in baby products; quality and safety are our priorities.

We based our workshop in Indonesia to be close to the source of rattan, where people have perfected the best skills to weave rattan for generations.

Our workshop follows all labour and safety regulations and best social practices. The workshop is regularly audited by Bureau Veritas to ICS (Initiative for Compliance and Sustainability) standards for ethical management.

POUR LA VIE, NATURALLY

THE LEAST POLLUTING WASTE IS THE ONE WE DON'T PRODUCE AT ALL.

## THÉO'S ADVANTAGES

Natural and sustainable materials (wood, rattan)

Evolutive beds

Soft-closing doors and drawers

Water-based paints and varnishes without smell or solvents

Cardboard packaging, no plastic

Rattan parts are all made by hand

French and European standards

NF EN 716 (2018), NF EN 12221+A1 (2013), Cradles : NF EN 1130 (2019)

Long-lasting and high quality furniture

All hardware in stainless steel

3-year guarantee

French creations

### WOOD

Théo uses wood from sustainably managed forests. White Australian Cedar (*melia azedarach*, margousier) is as strong as oak, resistant to insects and fungus, has a fast growing rate, and its leaves have medicinal properties that are beneficial to health.

Furniture and colours presented in this catalogue may slightly vary from commercialised versions. Technical information of the furniture may evolve and Théo™ reserves the right to modify its products anytime. Théo™'s furniture is made of natural materials, without any chemical treatment, without any humidity barrier or UV, and the pores of the materials are allowed to breathe. As a consequence, changes of colours or humidity traces can occur, as well as some cracks in the rattan. This has no effect on the strength of our furniture.
